## **EXPLANATORY NOTE**

*(This note is not part of the Regulations)*

These Regulations amend the Motor Vehicles (EC Type Approval) Regulations 1998 (SI 1998/2051) (“the principal Regulations”).

*Regulation 2* amends the definition of “the Framework Directive” in regulation 3(1) of the principal Regulations so that it encompasses the further amendments made to Council Directive 70/156/EEC by Directive 2004/104/EC.

The Table in Schedule 1 to the principal Regulations (“the Table”) lists separate Directives under the Framework Directive, which lay down technical standards for vehicle components or features of construction. Recent EC Directives 2004/104/EC, 2005/11/EC, 2005/21/EC and 2005/27/EC amend the separate Directives relating to radio interference (electromagnetic compatibility), vehicles tyres, diesel smoke emissions and devices for indirect vision respectively. *Regulation 3* inserts references to these Directives at the appropriate place in the Table, thereby implementing them for the purpose of EC type approval procedures.

In line with the principal Regulations, the use of the symbol \* denotes that the Directive specified is a Commission Directive.
